

# Capturing and measuring audience impact

## Handout CTP10

After your piece of theatre has been experienced by an audience, you will need to capture and measure the audience's response. Use the boxes below to begin listing ideas for how responses can be captured and measured in a talk-back session.

| Capturing audience response | Measuring audience impact |
|-----------------------------|---------------------------|
|                             |                           |
